

Sewer

SEWER CALL PROCEDURE

- **Check manhole up and down stream of problem.**
- **If the sewer main is flowing and there is no cleanout at the curb, or at the property line, customer needs to call a plumber and have a plumber find the problem.**
- **Plumber needs to locate customer's line and install a 4" flow directional cleanout then if the problem is on our side, we will fix the problem.**
- **The City will not be responsible for any of the cost associated with the plumber, since there was no cleanout at the curb.**
